Skills

- Java, Spring Boot, MySQL, SQL, Git, GitHub, postman, REST API, Docker, Kafka, Microservices

Projects

[Distributed Job Portal System \(Monolith + Kafka Microservice\)](#)

GitHub:

[Main Service](#)

[Notification Service](#)

Tech: Java, Spring Boot, Spring Security (JWT), Spring Data JPA, MySQL, Apache Kafka, Docker

Engineered a production-style Job Portal backend with JWT-based stateless authentication and role-based authorization (USER / ADMIN), securing 10+ protected endpoints.

- Designed and implemented 12+ REST APIs with pagination, whitelisted sorting, DTO isolation, and database-level constraints to enforce data integrity and prevent duplicate job applications.
- Implemented event-driven architecture using Apache Kafka, publishing application lifecycle events from the main service and consuming them in a dedicated notification microservice for service decoupling.
- Dockerized MySQL and Kafka infrastructure and configured production-grade settings (Open-In-View disabled, centralized exception handling, stateless sessions) to improve API consistency and maintainability.

[Expense Management Backend System](#)

Tech: Java, Spring Boot, Spring MVC, Spring Data JPA (Hibernate), MySQL, Spring Security (JWT), Validation, Pagination & Filtering, Git, GitHub

GitHub:

[Expense Management Backend](#)

- Developed a stateless RESTful backend using Spring Boot with JWT-based authentication and role-based access control.
- Implemented expense and category management APIs with date-based filtering and pagination for optimized data retrieval.
- Designed a layered architecture (Controller–Service–Repository) with DTO isolation and global exception handling.
- Enforced user-level data isolation and database constraints to ensure secure multi-user operation.

Education

Scaler, Specialized in Software Development & Problem Solving 2025

D.Y PATIL COLLEGE OF ENGINEERING, Bachelor of engineering 2020

Achievements

- [Java Certification — Scaler Academy](#)
- [Data Structures & Algorithms Certification — Scaler Academy](#)
- [Databases & SQL Certification — Scaler Academy](#)
- [Low Level Design Certification — Scaler Academy](#)
